Safety and Quality Assurance

The potential for disaster when handling flammable liquids demands serious solutions for protection. Just one gallon of vaporized gasoline can explode with the same force as twenty sticks of dynamite. Justrite set the standards for safety and backs them with the toughest approvals out there… Including FM Global and/or Underwriters Laboratories. An exclusive Ten-Year Warranty is your assurance of getting the best when you buy Justrite®.

Innovative new features make Justrite® Safety Cans your First Line of Defense against possible fire and explosion when pouring and storing flammable liquids.

- Control vapors and safely contain hazardous liquids to protect against personal injury and property loss
- Comply with OSHA regulations and state and local fire codes

Type I

Economical, ideal for pouring into big openings

One opening from which to fill and pour

vs Type II AccuFlow™

Easiest to use - for the smoothest, fastest, most controlled pouring

Two openings; top opening for filling, 2nd opening with hose attached for targeted pouring
Comfortable, rounded handle doesn’t cut into hand

Leakproof, positive pressure relief lid automatically vents to prevent rupture or explosion. It is spring-loaded to self-close controlling vapors and spills

Flexible 9" (229 mm) hose, offers targeted pouring into small openings

Quick-fill port on Type II AccuFlow™ features an ergonomically designed lift lever that opens wide for easy filling

Extra capacity in all cans accommodates oil additives for two cycle engines

Half-inch (13mm) grip lip along bottom supports pouring and resists accidental punctures when placed on uneven surfaces

Stainless Steel flame arrester stops flashback ignition, provides faster liquid flow, and offers superior chemical and corrosion resistance. Long 3-1/2" (88mm) length for safe secure insertion of gas nozzle

Optional 2-position polypropylene funnel for Type I cans aids in pouring and folds down for compact storage and filling

Large ID zone permits user labeling to avoid misuse, mishaps with incompatible mixtures, or to identify owner or department
Safety and maximum convenience are combined in these **Type II AccuFlow™ Safety Cans**

Durable galvanized steel Type II AccuFlow™ safety cans offer the most convenient, safest way to store and dispense flammable liquids. Built to meet OSHA and NFPA 30, they have been independently fire tested and approved by FM and UL. The exclusive vented AccuFlow™ manifold and Safe-Squeeze® trigger handle provide the easiest, fastest, most controlled liquid flow ever. Flexible metal hose is 9” (229mm) long to reach small openings. Ergonomically designed quick-fill port with comfort lift lever makes filling easier than ever.

Fill port is equipped with a long length, long life stainless steel flame arrester which reliably dissipates heat to prevent flashback ignition. Leakproof, positive pressure relief lid automatically vents to prevent rupture or explosion and self-closes to control vapors and spills. Trilingual warning label includes a large ID zone for user labeling of contents to avoid misuse, reduce the potential for incompatible mixtures, or designate department location or individual owner. Like all Justrite steel safety cans, quality is backed by a 10-year limited warranty.

**The Secret to Safe, Precision Pouring**

- **Patented design!**
- **Rounded comfort handle**
- **Safe-Squeeze® trigger**
- **Air displacement vent**
- **Quick-fill port with ergonomic lift lever**
- **Auto venting, leakproof self-closing lid**
- **Flexible hose**
- **Stainless steel flame arrester**
Protection plus advanced performance...

- Exclusive, vented AccuFlow™ manifold for the fastest, smoothest, most controlled pouring
- Auto venting, pressure relief cap prevents ruptures from pressure build-up
- Leakproof, self-closing gasketed lid controls vapors and spills
- Chemically resistant, long life stainless steel flame arrester stops flashback ignition
- Ergonomic offset fill port with comfort lift lever makes filling easier than ever
- Easy-to-use Safe-Squeeze® trigger for accurate control of liquid flow
- Extra large ID Zone reduces misuse. Danger warning in three languages.
- Flexible 9” (229mm) hose available in two diameters
- Fully compliant. 10 year warranty

Use color to help designate contents and segregate liquids.

kerosene oil flammables diesel

Safety cans are available in four colors that are suitable for the storage of liquids. Now it’s easy to differentiate between various types of liquids and avoid costly errors when more than one type of liquid is needed at a worksite.

For added safety and convenience, the label on Justrite safety cans includes an extra large ID zone to make it easy for the user to mark can contents, designate department/shift/user, etc.

Dependable, compliant, longest lasting protection ever!

Reduce fire risks and avoid injury with these hardworking

Type I Safety Cans

Fully compliant Safety Cans feature a high performance, chemical resistant stainless steel flame arrester that stops flashback ignition, provides faster liquid flow, and offers exceptional durability and corrosion protection for long life. This extra long precision mesh screen is a full 3-1/2" (88mm) long to ensure safe insertion of gas nozzle with metal-to-metal contact eliminating the potential of a spark and possible explosion.

Self-closing lid controls vapors and spills and unique counterbalanced, ergonomic design makes it easy to use. Leakproof, positive pressure relief cap automatically vents to guard against rupture or explosion. Warning label includes large ID zone for user labeling of contents to avoid misuse, reduce the potential for incompatible mixtures, or designate department location or individual owner. Other convenience features include a rounded comfort handle that swings to help in carrying heavy loads, reinforcing ribs for bumper guard protection, and large 1/2" (13mm) grip lip along bottom to support pouring.

To aid pouring into smaller openings, hinged Poly Funnel attaches easily to Type I steel can sizes 1 gallon (4 liter) and above. Design allows you to fill the can without removing the funnel and takes up less space when storing. Durable, large polypropylene rounded bowl provides protection from splashing and spillage. Two-stepped nozzle tip permits trimming to larger diameter. Funnel may be purchased separately or is available in a combination value pack with a Safety Can.
Protection plus advanced performance...

- Meets OSHA & NFPA, FM Approved. UL/ULC Listed, TÜV Certified
- Stainless steel flame arrester for exceptional corrosion protection – reliably dissipates heat to prevent flashback ignition
- Long 3-1/2” (88mm) length arrester allows safe, secure placement of gas nozzle. Chemically resistant, durable stainless construction is long lasting
- Leakproof, positive pressure relief cap automatically vents to prevent rupture or explosion
- Self-closing lid controls vapors and spills
- Large ID zone permits user labeling of contents to avoid misuse, mishaps with incompatible mixtures, or to identify owner or department location
- Ergonomic counterbalance design for easy pouring with rounded, swinging comfort handle for easy carrying
- Rugged steel with tough powder paint. 10 year warranty
