

Safety Cabinet and Cans for International Customers
An Explanation of Justrite model numbers ending in “1” or “Z”

To better accommodate the international export needs of our customers, Justrite Mfg. Co. provides a line of cabinets and cans which adhere to international trade regulations.

Specifically, Justrite adheres to wood packaging standards set forth in the International Standards for Phytosanitary Measures (ISPM). ISPM 15 is a standard that has been adopted by treaty to include 78 countries, and counting. The goal is to control the spread and infestation of harmful pest and disease affecting plant life and the ecology from exports using wood packaging. ISPM 15 has standards for wood packaging including certified treated lumber, OSB board, hardwoods, and plywood as acceptable wood packaging materials for export.

The international cabinets and cans are manufactured identically to their domestic counterpart, and also carry the same code compliance and approvals.

For our international safety cabinets, the addition of the number “1” at the end of model # denotes:

- Packaged onto an ISPM 15 heat treated certified pallet in compliance with the than 78 countries.
- Bottom of the cabinet is painted to avoid rusting which could occur over multiple weeks of overseas transport
- The 21 multilingual labels in the following languages (In addition to English, Spanish, and French that are already attached to the cabinet):

Arabic	German	Mandarin Chinese (simplified)	Slovenian
Czech	Hebrew	Norwegian	Swedish
Danish	Hungarian	Polish	Turkish
Dutch	Italian	Portuguese (European)	
Estonian	Japanese	Russian	
Finnish	Korean	Slovak	

For International Safety Cans the addition of the letter “Z” at the end of model # denotes:

In our growing attempt to meet the language needs of our global customers, we also provide our international can line. These “Z” cans include the non-Z can along with our multi-lingual package. This package includes:

*Multi-lingual instruction sheets and multi-lingual danger labels in 22 languages:
