

50'L x 9"W, Water Filled Boom - 28456

Product Images

Short Description

- Temporarily divert and control fluid for easy cleanup or recovery
- Used in multiple applications
- Flexible PVC film construction
- Helps comply with EPA stormwater regulations

Description

Use the water filled booms in storm water management, portable washdown/ pressure washing diversion, spill diversion, and equipment and personnel decontamination. Flexible PVC film construction conforms to uneven surfaces such as asphalt or concrete to form a diversionary barrier away from storm drains or as a holding area for wet vacuum operations. Features easy-open push plug for filling with standard water hose.

Helps comply with EPA for stormwater regulations.
