

Drum Grate for 2-Drum EcoPolyBlend™ Spill Pallets and Accumulation Centers, and Flexible Spill Containment - 28259

Product Images

Short Description

- Keep personnel and parts away from fluids and contaminants on all size EcoPolyBlend™ Spill Pallets, 2-8 drum Accumulation Centers and flexible spill containment berms

- Durable, chemical resistant, and easy-to-clean
- Made from 100% recycled polyethylene
- Recycled content saves on oil, electricity, and landfill space

Description

Use the Justrite Drum Grate (model 28259) for all size EcoPolyBlend™ spill pallets and 2 to 8 drum accumulation centers, as a grate replacement f. It can also be used in conjunction with flexible spill containment berms to help keep personnel and other objects above contaminated wash down water.

These grates measure 2.5 in H x 24 in W x 48 in D x 48 in L (64 mm H x 610 mm W x 1219 mm D x 1219 mm L), with a net weight of 17 lb (7.7 kg) and a surface temperature range of -30°F to 120°F (-34°C to 49°C). The durable, chemical-resistant, easy-to-clean grates are made from 100% recycled black polyethylene.

Why do you need it??

When spills happen, it's important to make sure the contents of spills do not come into contact with personnel or contaminate the workplace. Model 28259 grate replacements keep a protective layer between harmful contents and the environment.

With its durable construction and chemical-resistant properties, the grates can withstand virtually all types of fluids. This ensures enhanced safety in the workplace when used as a part of a flexible spill containment strategy alongside pallets and accumulation centers.
