Description

Cylinder support brackets provide a quick and easy solution for storing gas cylinders when space is at premium. Constructed from HDPE, the adjustable width design uses recessed set screws that lock the two halves in place. Heavy-duty polypropylene support straps, 1.5- x 54-in (38-mm x 1372-mm) and rated at 1138-lb (516-kg), feature steel cinch buckle and hold individual cylinders securely against bracket. Welded and plated, heavy-duty size 2/0 steel chains with twist link allows links to lay flat against the cylinders, enabling a tighter fit and preventing damage to required labeling.

Helps comply with OSHA, NFP1, NFPA 55, and CGA.
